**DETAILED ACTION*****Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a package indicator and method thereof having, inter alia, a first LED adapted to produce first light having a first spectrum; a second LED adapted to produce second light having a second spectrum different than the first spectrum and a controller configured to control the first LED and the second LED such that the indicator is capable of producing at least three different perceivable colors of light (claims 2 and 23); at least one LED comprising multiple semiconductor dies capable of emitting at least first light having a first spectrum and second light having a second spectrum different than the second spectrum, the first light and the second light being independently controllable such that at least three different colors may be generated by the at least one LED (claims 3 and 24); a system and method for indicating a condition of an item having, inter alia, an illumination system comprising a first LED adapted to produce first light having a first spectrum; a second LED adapted to produce second light having a second spectrum different than the first spectrum, the first LED and second LED being arranged to permit combining of the first light and the second light, and said illumination system being controlled to provide at least three different colors of illumination (claims 4, 21, 25 and 42). The remaining claims 5-20, 22, 26-41 and 43 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 2 through 43.

Art Unit: 2828

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
